SEWP OVERVIEW

NASA SEWP VI – The NASA SEWP (Solutions for Enterprise-Wide Procurement), pronounced "soup", provides the latest Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for all Federal Agencies and their approved contractors. Created in 1993, SEWP I was the first Government-Wide Acquisition Contract (GWAC) in the federal acquisition space. Originally, the contract vehicle provided only technology products for NASA and all other agencies. SEWP has continually evolved over the past 30 years, expanding its scope to meet the requests of its customers. The SEWP vehicle represents acquisition innovation within the Federal Government. The program is self-funded through usage fees (0.34%) and provides all Federal agencies with acquisition support - more than 50,000 orders a year.

WHAT'S IN SCOPE FOR SEWP VI?

SEWP is designed to provide a broad suite of Information Technology, Communication and Audio Visual (ITC/ AV) solutions and services. Technology is ever-evolving and for that reason SEWP's processes enable our Contract Holders to add new commercial technology and IT services to their contract daily, as requested by our customers. The focus of SEWP is on the full suite of technology offerings that simplify Governmental access and Industry offerings across the entire ITC / AV solutions and services landscape. SEWP is composed of three (3) scope categories detailed below. If you would like SEWP to determine if your requirement is within scope of the SEWP VI contract, please send an overview and / or bill of materials (BOM) to help@sewp.nasa.gov and we will quickly review and provide feedback.

ABOUT JST

Joint Strategic Technologies (JST) is a small business focused on delivering mission-driven technology and services to the Federal Government. As a NASA SEWP VI Contract Holder, JST provides customers with access to Information Technology, Communication, and Audio-Visual (ITC/AV) mission-based solutions and services. JST delivers platform-agnostic solutions leveraging low-code/no-code (LCNC), artificial intelligence (AI), and traditional development approaches.

JST holds CMMI Level 3 (DEV & SVC), CMMC Level 2, ISO 9001, ISO 20000, and ISO 27001 certifications.

CATEGORY C

Category C supports mission-based IT services, allowing us to provide tailored application development, data analytics, systems engineering, and operational support aligned with the unique objectives of individual programs. Together, these awards expand the ways federal agencies can engage Cognizance Technologies through NASA SEWP VI.
